OCP

# OCP: Path to adoption

Juliano Martinez / Sr. Sysadmin / Booking.com

**OPEN. FOR BUSINESS**

OCP

# Why?

Treat servers as light bulbs

Have a multi-vendor setup using the same(-ish) hardware

Fewer buggy value added features

Freedom to patch things

**OPEN. FOR BUSINESS**

OCP

# Challenges

- Datacenter
- BMC
- Bios
- Vendor

**OPEN. FOR BUSINESS**

OCP

# Datacenter

- How's your dc been built?
- Can you receive a full built rack through the door?
- Power usage

**OPEN. FOR BUSINESS**

OCP

# BMC

- Integration
- Vendor specific tools

**OPEN. FOR BUSINESS**

# Bios

- How to automate bios configuration
- Vendor peculiarities

OCP

# Vendors

- Know what you buy and from who you buy

**OPEN. FOR BUSINESS**

OCP

# Conclusion

- OCP is one of the shortest paths for light bulbs
- OpenBMC is required for vendor agnostic environments
- Read the specs compare vendors before commit
